SUMMARY

Business Analyst and Solutions Professional who connects business requirements with technical delivery on the ServiceNow platform. Experienced in process design, workflow automation, and stakeholder management, with a track record spanning requirements gathering, UAT, and documentation to translate complex needs into functional system enhancements that reduce manual effort and improve self-service usability.

EXPERIENCE

- Converger** Rome, Italy
ServiceNow Developer (Business Solutions) 04/2025 - Present
 - Delivered ServiceNow solutions for a global semiconductor manufacturer with 50,000 employees, and collaborated across **four different teams** to align platform features with business objectives.
 - Built Service Catalog items and **Flow Designer workflow automations**, writing **Catalog Client Scripts and UI Policies** in JavaScript for client-side form logic; customized UI Builder and portal pages with **AngularJS** to resolve usability gaps, reducing manual handling time by **30%** and cutting support requests by **20%**.
 - Presented solution designs and led live platform demonstrations for business stakeholders across the **four collaborating teams**, translating technical configurations into business value to support adoption and sign-off.
 - Wrote server-side scripts (**Business Rules, Script Includes**) using **GlideRecord** to automate record queries and updates, and integrated new applications via **API** to maintain data integrity and workflow continuity.
 - Translated business processes into platform enhancements across **ITSM, Strategic Portfolio Management (SPM), Portfolio Planning, and Service Portal** ServiceNow modules; conducted **User Acceptance Testing (UAT)**, coordinated release deployment, and documented configurations for post-production support.
- Property Dev** Rome, Italy
Architect 01/2024 - 09/2024
 - Translated client requirements into functional architectural layouts and detailed construction plans for residential and commercial projects.
 - Produced BIM models, 3D visualizations, and photorealistic renderings to facilitate project planning and speed up stakeholder decisions.
 - Advised clients on spatial layouts, lighting design, and material selection to optimize both budget and aesthetic quality.
- Renovo Group** Rome, Italy
Architect 01/2022 - 09/2023
 - Managed residential renovations for **12 projects** with a combined budget of **500K**, converting regulatory and client requirements into compliant architectural designs.
 - Authored comprehensive **architectural drawing sets** and technical files, securing a **100%** permit approval rate across municipal boards.
 - Coordinated timelines and deliverables for a **6-person team** of contractors, clients, and engineers to deliver all **12 projects** on schedule.

EDUCATION

- ServiceNow Developer Academy** 02/2025 - 04/2025
Enaip Rome, Italy
- Full Stack Developer** 10/2024 - 12/2024
